Business Systems: Microsoft Dynamics 365, Power Platform, API Integration, Automation, Digital Workflow Improvement

Budget & Vendors: Budget Planning, Procurement, Contract Negotiation, Asset Lifecycle, Vendor Management, SLA Governance

Cloud & Collaboration: Microsoft Azure, Microsoft 365, Exchange Online, Entra ID, Hybrid Cloud, Google Workspace

Security & Resilience: FortiGate, WatchGuard, pfSense, Endpoint Security, Veeam, Backup, DR, Business Continuity

Operations & Projects: ITIL, BMC Remedy, Incident Management, Project Delivery, Risk Management, Operational Handover

PROFESSIONAL EXPERIENCE

IT Infrastructure Consultant

Jul 2025 – Present

Insiyabi IT Co. | Environment Public Authority (EPA), Kuwait

- Lead delivery of IT and telecom initiatives from scope definition through implementation and operational handover, coordinating technical teams, customer stakeholders, milestones, risks, and dependencies.
- Provide senior technical and operational consultancy for hybrid infrastructure, Microsoft Azure, VMware environments, enterprise networks, and telecom platforms.
- Manage Alcatel OmniPCX Enterprise (OXE) voice infrastructure, including VoIP, SIP connectivity, call-routing services, Alcatel switches, ALE SBC integration, and ALE NMS monitoring.
- Support Azure compute, networking, identity, governance, secure connectivity, migration readiness, and integration between on-premises systems and cloud services.
- Drive customer-focused optimization and incident resolution across complex IT and telecom environments while maintaining quality, service continuity, and operational readiness.

WTE Wassertechnik GmbH | Umm Al Hayman Water Treatment Project, Kuwait

- Led IT operations, infrastructure strategy, and technology service delivery for a major water-treatment project, ensuring availability, security, scalability, and business alignment across on-premises and cloud environments.
- Managed a 10+ member IT team and IT managed-services activities through recruitment, coaching, technical leadership, KPI appraisals, performance tracking, and workforce development.
- Directed the administration and lifecycle of enterprise infrastructure, including servers, firewalls, switches, routers, virtualization, backup and replication, Microsoft 365, and Microsoft Azure services.
- Managed IT budgets exceeding USD 1M and procurement exceeding USD 500K, delivering cost savings through vendor negotiation, strategic sourcing, asset planning, and inventory optimization.
- Built productive relationships with 15+ vendors and stakeholders, improving SLA compliance, service coordination, procurement outcomes, and project execution.
- Established IT policies, procedures, service controls, and operational standards that reduced delays by 35% and improved incident-resolution time by 50%.
- Led evaluation, testing, implementation, training, and support of IT solutions, maintaining a 95% on-time IT project delivery record.
- Partnered with business functions to improve Microsoft Dynamics 365 ERP processes and deliver API-driven portals through Microsoft Power Platform, reducing manual workflows and supporting digital transformation.

Senior IT Administrator**Jul 2016 – Oct 2019****B. Online (formerly Gulfnet Co.), Kuwait**

- Administered and secured enterprise Windows Server environments, including Active Directory, Group Policy, DNS, DHCP, IIS, file-sharing, print services, and SQL Server 2012–2019.
- Managed Microsoft 365, Exchange, and Google Workspace services, supporting identity, user provisioning, email, collaboration, and mobile access.
- Operated VMware v7, Hyper-V, and Proxmox VE environments; managed virtual servers, networking, capacity, storage, and service availability.
- Administered Veeam Backup & Replication, object storage, SDS, NAS, SAN, and vSAN to protect production workloads and support recovery objectives.
- Managed network and security technologies including FortiGate, WatchGuard, pfSense, firewalls, switches, PBX, VoIP, Trend Micro, and ESET endpoint-management platforms.
- Performed datacenter installation and daily operations for Windows, Debian, and Ubuntu servers, UPS systems, batteries, cooling, fire suppression, and water-pump infrastructure.

IT Project Engineer**May 2014 – Jul 2016****Al-Diyar United Company (DUC) | Kuwait Petroleum Corporation (KPC) Project, Kuwait**

- Supported Windows domain infrastructure for 3,000+ users within a large enterprise oil-and-gas project environment.
- Delivered high-volume L2/L3 technical support through BMC Remedy, resolving 150+ tickets weekly across user computing, access management, email, and business technology services.
- Configured and troubleshoot PCs, laptops, multifunction devices, printing, scanning, fax, projectors, Outlook, and smartphone email services.

LEADERSHIP ACHIEVEMENTS

- Managed IT infrastructure, cloud services, team performance, budget, procurement, and vendor relationships in mission-critical project environments.
- Reduced operational delays by 35% through standardized IT policies, documented processes, governance controls, and service improvement initiatives.
- Improved incident-resolution time by 50% through stronger service delivery controls, ownership, escalation, and cross-functional coordination.
- Delivered 95% of technology projects on time while coordinating business stakeholders, vendors, technical teams, and operational handovers.
